

INOPTEP 2025 PTEP 2025

NINTH INTERNATIONAL CONFERENCE
SUSTAINABLE POSTHARVEST AND
FOOD TECHNOLOGIES
INOPTEP 2025
and
XXXVII NATIONAL CONFERENCE
PROCESSING AND ENERGY
IN AGRICULTURE
PTEP 2025
April 7th – 10th, 2025, ZLATIBOR, SERBIA

BOOK OF ABSTRACTS **ZBORNIK APSTRAKATA**

DEVETA MEĐUNARODNA KONFERENCIJA
ODRŽIVE POSLEUBIRAJUĆE I
PREHRAMBENE TEHNOLOGIJE
INOPTEP 2025
i
XXXVII NACIONALNA KONFERENCIJA
PROCESNA TEHNIKA I ENERGETIKA
U POLJOPRIVREDI
PTEP 2025
7 – 10. april, 2025, ZLATIBOR, SRBIJA

SCIENTIFIC COMMITTEE / NAUČNI ODBOR
(Scientific Committee conducted a review of conference abstract)

International members:

Prof. Dr. Marco Dalla Rosa, Italy, University of Bologna,
Prof. Dr. Paola Pittia, Italy, University of Teramo, Faro, ISEKI Food Association President,
Prof. Dr. Rui Costa, Portugal, Polytechnic Institute of Coimbra, ISEKI Food Association Secretary General,
Prof. Dr. Rafat Al Afif, Austria, BOKU, Vienna,
Prof. Dr. Silva Cristina, Portugal, Portuguese Catholic University,
Prof. Dr. Cecilia Hodur, Hungary, University of Szeged,
Prof. Dr. Vanja Jurišić, Croatia, University of Zagreb,
Prof. Dr. Zuzana Hlavačová, Slovakia, Slovak University of Agriculture in Nitra,
Prof. Dr. Costas Biliaderis, Greece, Aristotle University of Thessaloniki,
Prof. Dr. Vlasta Vozarova, Slovakia, Slovak University of Agriculture in Nitra,
Prof. Dr. Vangelče Mitrevski, North Macedonia, University of Bitola,
Prof. Dr. Dorota Kregiel, Poland, Lodz University of Technology,
Prof. Dr. Attila Gere, Hungary, Hungarian University of Agriculture and Life Sciences,
Dr. Branimir Simić, Croatia, Agricultural Institute Osijek,
Prof. Dr. Cosmin Sălaşan, Romania, University of Life Sciences "King Mihai I", Timișoara,
Prof. Dr. Izabela Witońska, Poland, Lodz University of Technology,
Prof. Dr. Danijela Bursać Kovačević, Croatia, University of Zagreb,
Prof. Dr. Neven Voća, Croatia, University of Zagreb.

National members:

Prof. Dr. Milivoj Radojičin, Faculty of Agriculture, University of Novi Sad,
Prof. Dr. Ivan Pavkov, Faculty of Agriculture, University of Novi Sad,
Prof. Dr. Filip Kulić, Faculty of Technical Science, University of Novi Sad,
Dr. Sonja Gvozdenac, Institute of Field and Vegetable Crops Novi Sad,
Dr. Goran Todorović, Maize Research Institute "Zemun Polje", Belgrade,
Dr. Olivera Đuragić, Institute of Food Technology, University of Novi Sad,
Dr. Aleksandra Đukić Vuković, ass. prof., Faculty of Technology and Metallurgy, University of Belgrade,
Dr. Branislav Šojić, ass. prof., Faculty of Technology, University of Novi Sad,
Dr. Milka Vučaković, Agricultural Extension Service "Agricultural Station", Novi Sad,
Dr. Rade Stanisavljević, Institute for Plant Protection and Environment, Belgrade,
Dr. Lana Đukanović, Institute for Plant Protection and Environment, Belgrade,
Dr. Mladenka Pestorić, Institute of Food Technology, University of Novi Sad,
Prof. Dr. Maša Bukurov, Faculty of Technical Science, University of Novi Sad,
Prof. Dr. Aleksandra Dimitrijević, Faculty of Agriculture, University of Belgrade,
Prof. Dr. Nebojša Novković, Faculty of Agriculture, University of Novi Sad,
Prof. Dr. Jelena Pejin, Faculty of Technology, University of Novi Sad,
Prof. Dr. Siniša Bikić, Faculty of Agriculture, University of Novi Sad,
Prof. Dr. Vladimir Bugarski, Faculty of Technical Science, University of Novi

Publisher / Izdavač

National Society of Processing and Energy in Agriculture, Novi Sad, Serbia
Nacionalno društvo za procesnu tehniku i energetiku u poljoprivredi, Novi Sad,
Trg Dositeja Obradovića 8

Co-publisher / Suizdavač

Faculty of Agriculture, Novi Sad, Serbia
Poljoprivredni fakultet, Novi Sad, Trg Dositeja Obradovića 8
Editor in Chief / Glavni i odgovorni urednik: Prof. Dr. Milivoj Radojičin

Editors / Urednici

Prof. Dr. Siniša Bikić

Doc. Dr. Aleksandra Đukić-Vuković

For Publisher / Za izdavača: Mr. Miladin Kostić

Technical editor / Tehnički urednik: Prof. Dr. Siniša Bikić

CONFERENCE ORGANIZERS:

- UNIVERSITY OF NOVI SAD, FACULTY OF AGRICULTURE, DEPARTMENT OF AGRICULTURAL ENGINEERING, NOVI SAD
- NATIONAL SOCIETY OF PROCESSING AND ENERGY IN AGRICULTURE

ORGANIZATORI KONFERENCIJE:

- UNIVERZITET U NOVOM SADU,
- POLJOPRIVREDNI FAKULTET
- DEPARTMAN ZA POLJOPRIVREDNU TEHNIKU,
- NOVI SAD
- NACIONALNO DRUŠTVO ZA PROCESNU TEHNIKU I ENERGETIKU U POLJOPRIVREDI,
- NOVI SAD,

CONFERENCE CO-ORGANIZERS:

- ISEKI - Food Association
- Institute for Food Technology, Novi Sad.
- Maize Research Institute
- “Zemun Polje”, Zemun,
- Faculty of Technology, Novi Sad,
- Faculty of Technical Science, Novi Sad,

SUORGANIZATORI KONFERENCIJE:

- ISEKI – Food association, Beč, Austrija,
- Institut za prehrambene tehnologije, Novi Sad
- Institut za kukuruz
- “Zemun Polje”, Zemun
- Tehnološki fakultet, Novi Sad,
- Fakultet tehničkih nauka, Novi Sad,

CONFERENCE HONORARY COMMITTEE:

- Prof. Dr. Mirko Babić, PTEP honorary president, University of Novi Sad, Serbia,
- Prof. Dr. Nenad Magazin, Dean of the Faculty of Agriculture, University of Novi Sad, Serbia,
- Dr. Jelena Begović, Minister for Science, Technological Development and Innovation of the Republic of Serbia,
- Prof. Dr. Paola Pittia, President of the ISEKI Food Association, Austria,
- Vladimir Galić, Provincial Secretary for Agriculture, Water Management and Forestry, Autonomous Province of Vojvodina, Serbia,
- Prof. Dr. Branko Markoski, Provincial Secretary for Higher Education and Scientific Research, Autonomous Province of Vojvodina, Serbia,
- Dr. Ljubiša Šarić, Director of the Institute of Food Technology, University of Novi Sad, Serbia,
- Dr. Miodrag Tolimir, Director of the Maize Research Institute "Zemun Polje", Serbia,
- Prof. Dr. Dragana Latković, Director of the Institute of Field and Vegetable Crops, Novi Sad, Serbia,
- Prof. Dr. Zita Šereš, Dean of the Faculty of Technology, University of Novi Sad, Serbia.

POČASNI ODBOR KONFERENCIJE:

- Prof. Dr Mirko Babić, Počasni predsednik PTEP, Univerzitet u Novom Sadu, Srbija
- Prof. Dr Nenad Magazin, Dekan Poljoprivrednog fakulteta, Univerzitet u Novom Sadu, Srbija
- Dr Jelena Begović, Ministarka nauke, tehnološkog razvoja i inovacija Republike Srbije
- Prof. Dr Paola Pittia, Predsednica ISEKI Food Association, Austrija
- Vladimir Galić, Pokrajinski sekretar za poljoprivredu, vodoprivredu i šumarstvo, Autonomna Pokrajina Vojvodina, Srbija
- Prof. Dr Branko Markoski, Pokrajinski sekretar za visoko obrazovanje i naučnoistraživačku delatnost, Autonomna Pokrajina Vojvodina, Srbija
- Dr Ljubiša Šarić, direktor Naučnog instituta za prehrambene tehnologije, Univerzitet u Novom Sadu, Srbija
- Dr Miodrag Tolimir, Direktor Instituta za kukuruz "Zemun Polje", Srbija
- Prof. Dr Dragana Latković, Direktor Instituta za ratarstvo i povrtarstvo, Novi Sad, Srbija
- Prof. Dr Zita Šereš, v.d. Dekanka Tehnološkog fakulteta, Univerzitet u Novom Sadu, Srbija

SUPPORTERS:

Ministry of Science, Technological Development
and Innovation Republic of Serbia
Government of the Autonomous
Provincial Secretariat for Higher Education
and Scientific Research,
Secretariat for Agriculture, Water
Management and Forestry

POKROVITELJI KONFERENCIJE:

Ministarstvo nauke, tehnološkog razvoja i
inoivacija Republike Srbije,
Vlada AP Vojvodine:
Pokrajinski sekretarijat za visoko obrazovanje i
naučnoistraživačku delatnost,
Sekretarijat za poljoprivrednu, vodoprivrednu i
šumarstvo

**CONFERENCE ORGANIZING
COMMITTEE:**

Mr. Miladin Kostić, President of the PTEP, Savacoop, Novi Sad, Serbia,
Prof. Dr. Milivoj Radojičin, Secretary General of the PTEP, University of Novi Sad, Faculty of Agriculture, Serbia,
Prof. Dr. Ivan Pavkov, vice dean, University of Novi Sad, Faculty of Agriculture, Serbia
Prof. Dr. Aleksandra Đukić Vuković, University of Belgrade, Faculty of Technology and Metallurgy, Serbia,
Prof. Dr. Siniša Bikić, University of Novi Sad, Faculty of Agriculture, Novi Sad,
Marko Nenadić dipl.ing, Uljarice Bačka doo Novi Sad, Serbia,
Dr. Olivera Đuragić, University of Novi Sad, Institute of Food Technology, Serbia,

**ORGANIZACIONI ODBOR
KONFERENCIJE:**

Mr. Miladin Kostić, predsednik PTEP, Savacoop, Novi Sad, Srbija
Prof. Dr. Milivoj Radojičin, generalni sekretar društva PTEP, Poljoprivredni fakultet, Univerzitet u Novom Sadu, Srbija
Prof. Dr. Ivan Pavkov, prodekan, Poljoprivredni fakultet, Univerzitet u Novom Sadu, Srbija
Prof. Dr. Aleksandra Đukić Vuković, Tehnološko-metalurški fakultet, Univerzitet u Beogradu, Srbija
Prof. Dr. Siniša Bikić, Poljoprivredni fakultet, Univerzitet u Novom Sadu, Srbija
Marko Nenadić dipl.ing, Uljarice Bačka doo Novi Sad, Srbija
Dr. Olivera Đuragić, Naučni institut za prehrambene tehnologije Novi Sad, Univerzitet u Novom Sadu, Srbija

FUTURE TRENDS AND LIMITATIONS OF ESSENTIAL OILS AND PLANT EXTRACTS AS ADDITIVES IN THE FORMULATION OF EDIBLE PACKAGING

Edible packaging is most commonly used in the form of films or coatings that cover various types of food to extend shelf life and serve as carriers of bioactive compounds that promote human health. Additionally, edible films and coatings can serve as sustainable alternatives to commercial plastic packaging, which poses both environmental and health concerns. These formulations primarily rely on natural hydrocolloids, including polysaccharides such as pectin, starch, alginate, and carrageenan; proteins like collagen, casein and gelatin; and lipids and waxes. One of the key advantages of edible films and coatings is their ability to incorporate active compounds (e.g., antimicrobials, antioxidants, nutraceuticals, flavors, colors) into polymer matrices. Essential oils and plant extracts are among the most valuable naturally derived ingredients due to their antimicrobial, antioxidant and antifungal properties, attributed to their bioactive compounds. As a result, the food industry has recognized them not only as natural preservatives but also as agents for enhancing the aroma and taste of foods. According to literature data, plant extract incorporation into edible packaging has been successfully implemented; however, the resulting films often exhibit undesirable properties, such as structural instability, reduced elasticity and break resistance, lower transparency and gloss, and diminished effectiveness. Additionally, using essential oils and plant extracts in larger-than-necessary quantities to achieve antimicrobial and antioxidant effects may negatively impact the organoleptic properties of packaged foods. Significant losses of volatile compounds have also been observed during the drying phase of edible films and coatings. To mitigate this, essential oils and plant extracts have been incorporated in the form of nanoemulsions. Encapsulation in nanoemulsions has been shown to enhance stability and minimize strong flavors and odors. However, before these agents are introduced into the food chain, appropriate safety assessments and toxicological studies must be conducted.

Key words: *edible packaging, essential oils, plant extracts, nanoemulsion.*

Acknowledgment of funding: This work was supported by Karlovac University of Applied Sciences through an internal project: Nutrition innovative three-dimensional 3D-esserts (HRID).

BUDUĆI TREND OVI I OGRANIČENJA ETERIČNIH ULJA I BILJNIH EKSTRAKATA KAO ADITIVA U FORMULACIJI JESTIVE AMBALAŽE

Jestiva ambalaža najčešće se koristi u obliku folija ili premaza kojima se prekrivaju različite vrste hrane kako bi se produžio rok trajanja i služila kao prijenosnik bioaktivnih spojeva koji promiču ljudsko zdravlje. Osim toga, jestive folije i premazi mogu poslužiti kao održiva alternativa komercijalnoj plastičnoj ambalaži, koja predstavlja brigu za okoliš i zdravlje. Ove se formulacije primarno oslanjaju na prirodne hidrokoloide, uključujući polisaharide poput pektina, škroba, alginata i karagenana; proteine poput kolagena, kazeina i želatine; te lipide i voskove. Jedna od ključnih prednosti jestivih filmova i premaza njihova je sposobnost ugradnje aktivnih spojeva (npr. antimikrobnih sredstava, antioksidansa, nutraceutika, aroma, boja) u polimerne matrice. Eterična ulja i biljni ekstrakti među najvrjednijim su sastojcima prirodnog podrijetla zbog svojih antimikrobnih, antioksidativnih i antifungalnih svojstava, koja se pripisuju njihovim bioaktivnim spojevima. Zbog toga ih je prehrambena industrija prepoznala ne samo kao prirodne konzervanse, već i kao sredstva za poboljšanje arome i okusa hrane. Prema literaturnim podacima uspješno je provedena ugradnja biljnih ekstrakata u jestivu ambalažu; međutim, dobiveni filmovi često pokazuju nepoželjna svojstva, kao što je struktorna nestabilnost, smanjena elastičnost i otpornost na lomljenje, manja prozirnost i sjaj, te smanjena učinkovitost. Osim toga, korištenje eteričnih ulja i biljnih ekstrakata u količinama većim od potrebnih za postizanje antimikrobnih i antioksidativnih učinaka može negativno utjecati na organoleptička svojstva pakirane hrane. Također su primijećeni značajni gubici hlapljivih spojeva tijekom faze sušenja jestivih filmova i premaza. Kako bi se to ublažilo, eterična ulja i biljni ekstrakti ugrađeni su u obliku nanoemulzija. Pokazalo se da inkapsulacija u nanoemulzijama poboljšava stabilnost i smanjuje jake okuse i mirise. Međutim, prije nego što se ti agensi uvedu u prehrambeni lanac, moraju se provesti odgovarajuće procjene sigurnosti i toksikološke studije.

Ključne riječi: jestiva ambalaža, eterična ulja, biljni ekstrakti, nanoemulzija.

Zahvala za financiranje: Ovaj rad je podržan od Veleučilišta u Karlovcu kroz interni projekt: HRanjivi Inovativni trodimenzijski 3D-eserti (HRID)
